I want to go to the store and get myself some bananas and apple's, after that I'll go to the bakery to get some nice bread. What else do you think I should get: please suggest something for me. I can't think of something what should I get: maybe some milk? I don't know. Or some other dairy product like yogurt? Maybe I should get some eggs too. What do you think? I think you should also consider getting some cheese, it pairs well with bread and can be a nice addition to your meals. If you're looking for something sweet, maybe some chocolate or a dessert item could be a good idea. Don't forget to check if you need any snacks or beverages for the week as well! Also, if you're planning any meals, think about any spices or condiments you might be running low on. And of course, always good to have some fresh vegetables and fruits for a balanced diet!

1 Introduction

This is a book created from markdown and executable code.

See Knuth (1984) for additional discussion of literate programming.
